Hinweis: Vor der Installation Verunreinigungen in der Wasserleitung durch Spülen entfernen. Der Anschluss für heißes Wasser muss links und für kaltes Wasser rechts installiert werden. Achten Sie auf waagerechten Einbau. Stellen Sie sicher, dass sich der Auslauf nach der Installation auf der Mittellinie des Beckens befindet.

Note: Clean out impurities in the water pipe. The connection for hot water must be installed on the left and cold on the right. Pay attention to horizontal installation. Make sure the spout is on the centerline of basin after installation.

Remarques: Avant de procéder à l'installation, veuillez éliminer toutes les impuretés de la conduite d'eau en la rinçant. La connexion pour l'eau chaude doit être installée sur la gauche et pour l'eau froide sur la droite. Faites attention à l'installation horizontale. Assurez-vous que le bec du mélangeur est bien central de sorte que la sortie de l'eau corresponde au centre du lavabo.

Nota: Prima di procedere all'installazione, si prega di rimuovere ogni eventuale impurità dall'apposito tubo dell'acqua. Collegare a sinistra l'acqua calda e a destra l'acqua fredda. Prestare attenzione all'installazione orizzontale e assicurarsi di centrare il miscelatore, in modo tale che l'uscita dell'acqua corrisponda a centro del lavabo.
