

SWG

~~COULD WOULD SHOULD~~

GET GOING!

WE'RE LOOKING FOR GO-GETTERS #BACHELOR OF ENGINEERING (M/F/D) DEGREE PROGRAMME IN MECHANICAL ENGINEERING

Looking for the optimal way to combine a degree and apprenticeship? The degree programme in Mechanical Engineering is a three-year technical study programme that provides you with top preparation for your later career, with a three-month alternating cycle of practical and theoretical phases. During the theoretical phases, you will gain both basic engineering skills as well as subject-specific knowledge, while the practical phases will offer you the chance to develop and implement your own projects independently.

PROSPECTS AT SWG

- Development and implementation of independent projects
- Financial independence through monthly remuneration
- Excellent prospects for moving into a fixed employment relationship

REQUIREMENTS

- Advanced school leaving certificate or advanced technical college certificate with aptitude test at the DHBW
- Interest in science, mathematics and technology
- High willingness to learn and independence
- Friendly, confident demeanour
- Team player and reliable
- Goal-oriented working

Cooperative State University Baden-Württemberg Karlsruhe | Starting 1 September of the year | 3 years or 6 semesters

So what comes next?

The extensive degree programme in Mechanical Engineering allows you to enjoy a wide professional remit with very good chances of fixed employment. However, if the Bachelor of Engineering (m/f/d) still isn't enough for you, you could choose to continue your studies with a Master's degree.
