

Evolution 2X

The **Evolution 2X** are built on the success of the legendary and nowadays rare front anamorphic Kowas.

The lenses are the smallest, most compact cine anamorphics on the market today performing magnificently on S35 cameras and from the 75mm on up to Full Format (36x24mm).

Soft contrasts, emotional flares and warm color tones – unique optical performance combined with state-of-the-art mechanics, that's Evolution 2X.

Six primes are available:

Evolution 2X 32mm / T2.4

Evolution 2X 40mm / T2.4

Evolution 2X 50mm / T2.4

Evolution 2X 75mm / T2.5

Evolution 2X 100mm / T3.3

Evolution 2X 135mm / T3.5
