

PS-IMS

INTERCHANGEABLE MOUNT SYSTEM

The P+S TECHNIK Interchangeable Mount System (IMS) lens mount adapters make available hundreds of film and still photography lenses.

All PS-IMS lens mount adapters are pre-collimated in the factory to zero position for the flange focal distance of the lens mount. Shims for individual adjustment are available.

All IMS 2.0 mount adapters are designed future-proof and are backwards compatible. IMS 1.0 adapters are compatible with all IMS cameras and Sony FZ cameras when using the FZ adapter ring (#27558).

KEY FEATURES

- Ease-of-use change of lens mount
- More than eight different lens mounts available
- Makes a wide range of lenses available
- Pre-collimated, no more adjustments necessary
- Shims available for individual adjustment

CAMERA ADAPTION
