

Assembly/operating instructions for linovum ceiling light paniled - recessed light

1. Intended use

This product is for lighting purposes only and:

- may only be installed indoors / only be operated in dry rooms, i.e. not in damp rooms or rooms where there is a risk of dirt and in the area of high humidity
- must not be exposed to strong mechanical loads or heavy soiling - may not be operated after damp or dirty storage until after a condition check - may not be changed or modified, otherwise the operating permit and conformity will expire with immediate effect! It is not allowed to remove the type plate.

⚠ If the aforementioned points are not observed, a short circuit or electric shock may occur! **There is danger to life!**

2. General safety instructions

- ⚠ The complete installation may only be carried out by an authorized electrician who is familiar with the applicable guidelines. Hereinafter referred to as „qualified electrician“.
- ⚠ For safe handling of the product, the user must have read and understood the installation/operating instructions completely before using the device for the first time.
- ⚠ The product may only be used if it is alright. If the device or parts of it are defective, it must be repaired by a qualified electrician.
- ⚠ This product is not a toy and is not allowed be stored or used within the reach of children.
- ⚠ Safe operation of the product is only guaranteed if these instructions are followed. Therefore, keep these assembly/operating instructions. Linovum GmbH accepts no liability if the instructions given here are not followed or the lamp is subjected to improper use.

3. Assembly & configuration

- ⚠ **Caution:** The connecting cable must be disconnected from the power supply before starting work (switch off the main switch/fuse!) Only use parts which are supplied with the product or which are clearly marked as equipment! Otherwise the product may not be sufficiently safe!
- ⚠ When drilling, pay attention to cables and gas and water lines.

3.1 Assembly location

The product is suitable for mounting on ceilings and walls. The product may only be mounted on a stable, tilt-resistant and level surface. Do not cover the product under any circumstances, especially not with insulating material! Fire hazard!

4. Operation, faults & disorders

- ⚠ **Caution:** Disconnect the connecting cable from the power supply before replacing lamps/light sources! Halogen lamps/light sources become very hot during operation - risk of burns! Therefore, do not touch the protective glass or the reflector! Allow to cool down before replacing! Do not cover! There is a risk of fire when covering (e.g. with towel)! Lamps with protective cover may only be operated with complete protective cover!
- ⚠ Never look directly into the light source!

What to do in case of error?

In case of an error, the device must be switched off immediately. The product may only be operated if it works correctly. The device may only be put back into operation after it has been checked by a qualified electrician! **This is the case if:**

1. there is visible damage,
2. the product is not working corrcly,
3. there is smoke, steam, or audible crackling noises,
4. overheating can be detected.

- ⚠ **Caution:** There is a danger to life - repairs to the product or work on parts carrying mains voltage may only be carried out by qualified electricians.

Avoidance of disturbances and fire hazards:

It is not allowed to cover the product under any circumstances. Air circulation must be ensured. Nothing may be attached or hung on the product, especially no decoration.

5. Cleaning & care instructions

The product may only be wiped dry or carefully with a slightly damp and lint-free cloth. The product is not allowed to be removed for this purpose. Do not use abrasive or sharp objects or aggressive cleaning agents. Do not use solvents.

5. Suitable for ceilings 3-20 mm thick. **Fig.4**
6. Make sure that the product cannot fall down after assembly!
7. The product is now ready for use.

Technical data model paniled 7W

Type:	Recessed light round / square
Model:	840002028 840002029 840002030 840002031
Protection type:	IP20
Voltage:	220-240V AC / 50-60 Hz
Material:	Metal & plastics
Light source:	LED module fixed, not changeable
Beam angle:	120°
Measurements:	ø 110 mm x 35 mm (round) 110 x 110 x 35 mm (square)
Power:	7 W
Colour temperature:	Warm white 2700 K neutral white 4000 K
Switching cycles & service life:	10.000 x & 20.000 h
Luminous flux:	Warm white 700 Lumen neutral white 720 Lumen
Cutout:	68 - 95 mm
Installation depth:	15 mm

Technical data model paniled 12W

Type:	Recessed light round / square
Model:	840002032 840002033 840002034 840002035
Protection type:	IP20
Voltage:	220-240V AC / 50-60 Hz
Material:	Metal & plastics
Light source:	LED module fixed, not changeable
Beam angle:	120°
Measurements:	ø 155 mm x 39 mm (round) 155 x 155 x 39 mm (square)
Power:	12 W
Colour temperature:	Warm white 2700 K neutral white 4000 K
Switching cycles & service life:	10.000 x & 20.000 h
Luminous flux:	Warm white 910 Lumen neutral white 1020 Lumen
Cutout:	110 - 135 mm
Installation depth:	15 mm

Important information

Disconnect the connecting cable from the power supply

Protection class II

Installation only by qualified electrician

Only suitable for indoor use

Vers. 07/2019

Notes on use indoors & outdoors

- ⚠ **Protection type IP20 & IP23:** Use only indoors and dry, i.e. do not use in damp or dirty rooms and in areas of high humidity.
- ⚠ **Protection type IP44 & IP6X:** Can be used indoors and outdoors.
