

Assembly/operating instructions for SSC-LUXon recessed light Matapo

1. Intended use

This product is for lighting purposes only and:

- may only be installed indoors / may only be operated in dry rooms, i.e. not in damp rooms or rooms where there is a risk of dirt and in the area of high humidity
 - must not be exposed to strong mechanical loads or heavy soiling
 - may not be operated after damp or dirty storage until after a condition check
 - may not be changed or modified, otherwise the operating permit and conformity will expire with immediate effect!
- It is not allowed to remove the type plate.

▲ If the aforementioned points are not observed, a short circuit or electric shock may occur! **There is danger to life!**

2. General safety instructions

- ▲ The complete installation may only be carried out by an authorized electrician who is familiar with the applicable guidelines. Hereinafter referred to as „qualified electrician“.
- ▲ For safe handling of the product, the user must have read and understood the installation/operating instructions completely before using the device for the first time.
- ▲ The product may only be used if it is alright. If the device or parts of it are defective, it must be repaired by a qualified electrician.
- ▲ Only use lamps/light sources approved by the manufacturer. The max. lamp wattage in watts is not allowed to be exceeded.
- ▲ This product is not a toy and is not allowed to be stored or used within the reach of children.
- ▲ Safe operation of the product is only guaranteed if these instructions are followed. Therefore, keep these assembly/operating instructions. SSC-LUXon GmbH accepts no liability if the instructions given here are not followed or the lamp is subjected to improper use.

3. Assembly & configuration

▲ **Caution:** The connecting cable must be disconnected from the power supply before starting work (switch off the main switch/fuse)! Only use parts which are supplied with the product or which are clearly marked as equipment! Otherwise the product may not be sufficiently safe!

▲ When drilling, pay attention to cables and gas and water lines.

3.1 Assembly location

The product is suitable for mounting on ceilings and walls. The product may only be mounted on a stable, tilt-resistant and level surface. Do not cover the product under any circumstances, especially not with insulating material! Fire hazard!

▲ Components of the luminaire and especially the lamps/light sources become hot during operation. Especially in the case of halogen lamps/light sources. Keep a sufficient distance (0.5 m) from easily flammable objects (e.g. curtains, drapes, etc.) and flammable materials (ignition temperature < 250°C)!

4. Operation, bulb replacement, faults & disorders

▲ **Caution:** Disconnect the connecting cable from the power supply before replacing lamps/light sources!

Do not cover! Covering with (e.g. towel) is a fire hazard! Luminaires with protective cover may only be operated with complete protective cover!

▲ Never look directly into the light source!

What to do in case of error?

In case of an error, the device must be switched off immediately. The product may only be operated if it works correctly. The device may only be put back into operation after it has been checked by a qualified electrician! **This is the case if:**

1. there is visible damage,
2. the product is not working correctly,
3. there is smoke, steam, or audible crackling noises,
4. overheating can be detected

▲ **Caution:** There is a danger to life - repairs to the product or work on parts carrying mains voltage may only be carried out by qualified electricians.

Avoidance of disturbances and fire hazards:

It is not allowed to cover the product under any circumstances. Air circulation must be ensured. Nothing may be attached or hung on the product, especially no decoration.

5. Cleaning & care instructions

The product may only be wiped dry or carefully with a slightly damp and lint-free cloth. The product is not allowed to be removed for this purpose. Do not use abrasive or sharp objects or aggressive cleaning agents. Do not use solvents.

Technical data & assembly instructions recessed light Matapo

Matapo

1. Measure and cut out the cutout (Ø see technical data)

2. Disconnect the connecting cable from the power supply.

Can only be used indoors.

3. Connect the connecting cable with the mains cable:
For an **LED module (without socket)**, connect the L & N conductors with the connecting cable (e.g. with a luster terminal) - For a **GU10 lamp**, connect the two conductors of the socket with the connecting cable (e.g. with a luster terminal).

3. Place the lamp / module in the recessed light at the side in the retaining clips. Apply pressure from above with both thumbs so that the lamp „snaps in“. „Make sure that the light source sits straight in the light.

3.1 Only for GU10 bulb: Screw the bulb into the socket.

4. Press the spring clips upwards and insert the lamp into the cut-out.

5. Make sure that the product cannot fall down after assembly and that it sits flat on the ceiling!

6. The product is now ready for use.

Type:	Recessed ceiling light
Model:	Matapo
Protection type:	IP20
Voltage:	230V AC 50/60 Hz
Material:	Aluminium
Direction of light:	Downwards with effect ring
Max. power:	15 W
Operating temperature:	-5°C - +40°C
Protection class:	II
Measurements:	Ø 94 mm
Cutout:	77-85 mm
Installation depth without lamp:	34 mm
Swivelling:	No
