

## Assembly/operating instructions for SSC-LUXon pathway light DRADO 990070817

### 1. Intended use

This product is for lighting purposes only and: -can be installed indoors and outdoors -protection type IP44, suitable for indoor & outdoor use -must not be exposed to strong mechanical loads or heavy soiling -may not be operated after damp or dirty storage until after a condition check -may not be changed or modified, otherwise the operating permit and conformity will expire with immediate effect!  
It is not allowed to remove the type plate.

▲ If the aforementioned points are not observed, a short circuit or electric shock may occur! **There is danger to life!**

### 2. General safety instructions

▲ For safe handling of the product, the user must have read and understood the installation/operating instructions completely before using the device for the first time.

▲ The product may only be used if it is alright. If the device or parts of it are defective, it must be repaired by a qualified electrician.

▲ Only use lamps/light sources approved by the manufacturer. The max. lamp wattage in watts is not allowed to be exceeded.

▲ Safe operation of the product is only guaranteed if these instructions are followed. Therefore, keep these assembly/operating instructions. SSC-LUXon GmbH accepts no liability if the instructions given here are not followed or the lamp is subjected to improper use.

### 3. Assembly & configuration

▲ **Caution:** The connecting cable must be disconnected from the power supply before starting work (switch off the main switch/fuse)! Only use parts which are supplied with the product or which are clearly marked as equipment! Otherwise the product may not be sufficiently safe!

#### 3.1 Assembly location

The product is suitable for indoor & outdoor installation.

▲ Components of the luminaire and especially the lamps/light sources become hot during operation. Especially in the case of halogen lamps/light sources. Keep a sufficient distance (0.5 m) from easily flammable objects (e.g. curtains, drapes, etc.) and flammable materials (ignition temperature < 250°C)!

### 4. Operation, bulb replacement, faults & disorders

▲ **Caution:** Disconnect the connecting cable from the power supply before replacing lamps/light sources!

Halogen lamps/lamps become very hot during operation - risk of burns! Therefore, do not touch the protective glass or the reflector! Allow to cool down before replacing! Do not cover! There is a risk of fire when covering (e.g. with towel)! Lamps with protective cover may only be operated with complete protective cover!

▲ Never look directly into the light source!

#### What to do in case of error?

In case of an error, the device must be switched off immediately. The product may only be operated if it works correctly. The device may only be put back into operation after it has been checked by a qualified electrician! **This is the case if:**

1. there is visible damage 2. the product is not working correctly 3. there is smoke, steam, or audible crackling noises 4. overheating can be detected

▲ **Caution:** There is a danger to life - repairs to the product or work on parts carrying mains voltage may only be carried out by qualified electricians.

#### Avoidance of disturbances and fire hazards:

It is not allowed to cover the product under any circumstances. Air circulation must be ensured. Nothing may be attached or hung on the product, especially no decoration.

### 5. Cleaning & care instructions

The product may only be wiped dry or carefully with a slightly damp and lint-free cloth. The product is not allowed to be removed for this purpose. Do not use abrasive or sharp objects or aggressive cleaning agents. Do not use solvents.

## Assembly instructions pathway light DRADO 990070817

1. Do not connect the connecting cable to the mains or disconnect it from the power supply beforehand.
2. Remove the upper part of the light by unscrewing it anticlockwise. **Fig.1**
3. Insert the E14 light source into the socket. After inserting the light source, turn it firmly clockwise. **Fig.3**
4. Reassemble the upper part of the light by turning it clockwise. **Fig.4**
5. Only connect the light with the integrated junction box to the mains via the earth cable. **Fig.2**
6. Mount the light in the desired position using screws. **Fig.3**
7. The product is now ready for use and the connection line can be released.

## Technical data pathway light DRADO 990070817

Can be used indoors and outdoors

Type:	Pathway light
Model:	990070817
Protection type:	IP44
Voltage:	220-240V / 50-60Hz
Material:	Steel, plastic
Max. power:	15 W
Socket:	E14
Operating temperature:	-20°C - +40°C
Protection class:	I
Measurements (HxWxD):	50 x 10 x 10 mm
Colour:	Black

## Notes / explanations & legend

### Important information

Disconnect the device from the mains power before starting any work

Protection class I

Installation only by qualified electrician

Vers. 06/2022

### Notes on use indoors & outdoors
