

Assembly/operating instruction for SSC-LUXon recessed light of glass

1. Intended use

This product is for lighting purposes only and:

- only be installed indoors / only be operated in dry rooms, i.e. not in damp or dirty rooms and in areas of high humidity
 - must not be exposed to strong mechanical loads or heavy soiling
 - may not be operated after damp or dirty storage until after a condition check
 - may not be changed or modified, otherwise the operating permit and conformity will expire with immediate effect!
- It is not allowed to remove the type plate.

⚠ If the aforementioned points are not observed, a short circuit or electric shock may occur! **There is danger to life!**

2. General safety instructions

- ⚠ The complete installation may only be carried out by an authorized electrician who is familiar with the applicable guidelines. Hereinafter referred to as „qualified electrician“.
- ⚠ For safe handling of the product, the user must have read and understood the installation/operating instructions completely before using the device for the first time.
- ⚠ The product may only be used if it is alright. If the device or parts of it are defective, it must be repaired by a qualified electrician.
- ⚠ Only use lamps/light sources approved by the manufacturer. The max. lamp wattage in watts is not allowed to be exceeded.
- ⚠ This product is not a toy and is not allowed to be stored or used within the reach of children.
- ⚠ Safe operation of the product is only guaranteed if these instructions are followed. Therefore, keep these assembly/operating instructions. SSC-LUXon GmbH accepts no liability if the instructions given here are not followed or the lamp is subjected to improper use.

3. Assembly & configuration

⚠ **Caution:** The connecting cable must be disconnected from the power supply before starting work (switch off the main switch/fuse)! Only use parts which are supplied with the product or which are clearly marked as equipment! Otherwise the product may not be sufficiently safe!

⚠ When drilling, pay attention to cables and gas and water lines.

3.1 Assembly location

The product is suitable for installation in ceilings or walls. The product may only be installed on stable, tilt-resistant and level surfaces. Do not cover the product under any circumstances, especially not with insulating material! Fire hazard!

⚠ Components of the luminaire and especially the lamps/light source become hot during operation. Especially in the case of halogen lamps/ light source. Keep a sufficient distance (0.5 m) from easily flammable objects (e.g. curtains, drapes, etc.) and flammable materials (ignition temperature<250°C)!

4. Operation, bulb replacement, faults & disorders

⚠ **Caution:** Disconnect the connecting cable from the power supply before replacing lamps/light sources! Allow to cool down before replacing! Do not cover! Covering with (e.g. towel) is a fire hazard!

⚠ Never look directly into the light source!

What to do in case of error?

In the event of a fault, the unit must be switched off immediately. The product may only be operated if it functions faultlessly. The unit may only be put back into operation after it has been checked by a qualified electrician! **This is the case if:**

1. there is visible damage,
2. the product is not working correctly,
3. there is smoke, steam, or audible crackling noises,
4. overheating can be detected

⚠ **Caution:** There is a danger to life - repairs to the product or work on parts carrying mains voltage may only be carried out by qualified electricians.

⚠ It is not allowed to cover the product under any circumstances. Air circulation must be ensured. Nothing may be attached or hung on the product, especially no decoration.

5. Cleaning & care instructions

The product may only be wiped dry or carefully with a slightly damp and lint-free cloth. The product is not allowed to be removed for this purpose. Do not use abrasive or sharp objects or aggressive cleaning agents. Do not use solvents.

Technical data & assembly instructions

1. The connecting cable must be disconnected from the power supply before starting work (switch off the main switch/fuse).

2. Measure and cut out the cutout (Ø see technical data table).

3. Insert the light source into the recessed luminaire and connect the connecting cable to the mains cable.

4. Push the spring clips upwards and insert the light into the cutout.

5. Suitable for ceilings from 3-20mm thick.

6. Make sure that the product cannot fall down after assembly! Switch the connecting cable back to voltage.

Can only be used indoors

7. The product is now ready for use.

Type: Recessed light

Models: Rigid or swivelling

Protection type: IP23

Voltage: 220 - 240 V AC 50/60 Hz

Material: Aluminium / glas

Colour: White/transparent or black

Max. power: 15 W

Operating temperature: -5°C - +40°C

Protection class: II

Measurements: Version round: Ø 90 mm
Version square: 90 x 90 mm

Cutout: Ø 60-70 mm

Notes / explanations & legend

The following applies to all models

Disconnect the device from the mains power before starting any work

Protection class II

Installation only by qualified electrician

Distance to illuminated objects min. 0.5m

Vers. 12/2021

Notes on use indoors & outdoors

⚠ **Protection type IP2X:** Use only indoors and dry, i.e. do not use in damp or dirty rooms and in areas of high humidity.

⚠ **Protection type IP4X, P5X & IP6X:** Can be used indoors and outdoors.
