The product may only be wiped dry or carefully with a slightly damp and lint-free cloth. The product is not allowed to be removed for this purpose. Do not use abrasive or sharp objects or aggressive cleaning agents. Do not use solvents.

## Assembly instructions ZAVO garden socket smart

1. Do not connect the connecting cable to the mains and disconnect it from the power supply beforehand.
2. Remove the base plate on the lower side by removing the two screws on the side. **Fig.2**
3. Feed the earth cable through the opening and mount the base plate at the desired location using dowels and screws. **Fig.3 & Fig.4**
4. Connect the socket column with the integrated connection box to the mains using e.g. an underground cable. **Fig.5 & Fig.6**
5. Stow the junction box back in the socket column.
6. Reassemble the socket column to the base plate with the previously removed side screws. **Fig.8**
7. The product is now ready for use and the connection line can be released.

▲ **Note:** The power supply can be switched on and off via the app, via smart speakers (e.g. Alexa, Google) or manually using the switch on the back - even without a Wi-Fi connection. The Wi-Fi function enables additional time-controlled switching, which can be configured in the app.

▲ **Pairing mode:** To put the power socket in pairing mode, press and hold the the button on the socket column for 2-3 seconds.

- Download the smartphone App
- Pairing the socket via WLAN
- Controlling electricity via smart-phone
