**7** Connect the control box to the handset and to the motor

Operation Guide

AKT01   AKT-02

1. Normal Operation

Drive the desk to the desired height when pressing and holding "↑" or "↓" button.

2. Setting the memory function (only for AKT-02)

When the desk rises to the height which you want to memorize, please press and hold the "M" button till the display flashes and then press "1" button. Position 1 is now memorized. Repeat the above procedure for positions 2, 3 & 4. These four number buttons can memorize four different heights repeatedly. And those data won't be lost in case power is off.

3. System Initialization

If the system doesn't work normally when we use it, we need reset the system, to make the system be initialized.
Resetting procedure is as follows, press and hold on both "↑" and "↓" button together until the lifting column be lowest and you will hear a beep, and the display shows the number for lowest height, then whole step finishes.

Notice

1: This product must meet the actual technical parameters in use.
2: The system should be away from water and corrosion resistant gas.
3: Please contact us or our distributors if there is anything wrong with the product.

As above shown, add new switch function base on the premise that original keys function unchangeable , procedure as follows:
1. Press the "1" "2" "M" buttons together for about 5 seconds, display "C-E" (flashing)---then continue to procedure 2, 3 .
2. Press button "1" within 5 seconds, display "C" , then switch to metric system CM---go into the general operation
3. Press button "2" within 5 seconds, display "E" then switch to British system Inch---- go into the general operation
4. If above procedures no further operate over 5 seconds , then will recover to the previous setting.
