The new dimension!

Certified by Google, Netflix and Amazon, this latest generation of an Android TV dongle with a powerful 4-core microprocessor with 16,560 DMIPS, 8 GB Flash and 2 GB DDR3 RAM memory, leaves nothing to be desired for more features.

As a counterpart for many commercially available Android STBs and dongles, this dongle officially supports Netflix, Amazon Prime Video, Google Video, Zattoo, Maxdome, YouTube and Amazon Prime Music apps, as well as various TV libraries and all others that can be downloaded from the Google Play Store.

This Android TV dongle supports Google Assistant voice control, offering easy operation for users.

The ATV dongle shines in an elegant, satin black ABS case.

An expansion with existing apps from the Google App Store as well as upcoming apps is possible at any time.

Android TV

You can access different databases with one device. Netflix, YouTube or Google Music are addressed directly in one app. The intelligent system learns the user's preferences and presents personalized recommendations for Google Play and YouTube directly on the home screen.

Voice control makes operation very convenient and much easier than key input. The uncomplicated transfer of content from other devices allows viewing on a large TV screen.

So with Android TV, you not only experience an extensive streaming world in 4K resolution, but also gaming enjoyment on a large screen.

Don't worry about the future, with this certified dongle you will get updates in the future, so this Android TV dongle is always up to date.

Plug in, simply connect to the Internet via Wi-Fi, and then enjoy many packages of audio and video entertainment.

Interfaces

1 x HDMI 2.1 (HDCP 2.2 incl.)

1 x DC IN 12V/1,5A
