

Chair and Bench Assembly

Thank you for purchasing our Canadian-made products

We suggest adding wood glue to the ends of the logs prior to inserting them into the holes, but this is not mandatory.

Parts Included:

2 Side Assemblies, 1 Bottom Assembly,
1 Back Assembly, 6 Screws

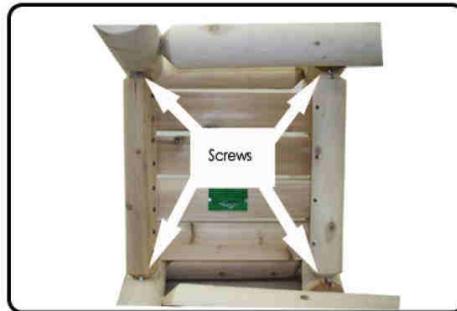

1) Lay Side Assembly holes upward.
2) Insert Back Assembly fully into holes in Side Assembly.

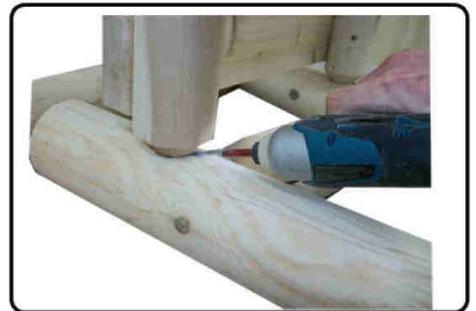

3) Insert Seat Assembly fully into holes in Side Assembly.
4) Use mallet to ensure full insertion.

5) Place other Side Assembly of chair on top and insert.
6) Use mallet to ensure full insertion.

7) Insert one screw under seat into each leg as shown.

8) Insert screws where Seat Assembly was inserted into sides of legs as shown.

9) Repeat on Back of chair as shown. Top only. None required on bottom.

Your chair is now assembled!

Bolts should be tightened periodically to ensure a long-lasting product.
