

autumn/ winter 2022

wunder[werk]

more than organic.

Wunderwerk stands for the interaction of fashionable design, comfortable fit and high quality sustainable manufacture throughout the entire production and delivery chain.

Furthermore, wunderwerk avoids “plastics” as far as possible and does not use mineral oil based fabrics like Polyamid, Polyacryl etc. The Duesseldorf-based label appeals to fashion-oriented women and men who consciously combine fashion and sustainability. wunderwerk wants to be recognised not only as a fashion label with an ethical „green“ organic background, but as a „Love-mark“ which inspires customers emotionally. The production is mainly in Europe and always done in harmony with the environment, humans and animals.

Don't panic - it's organic!
